POSH TRAVEL

Rooms for Parties of 2

Editorial Exclusive!

Situated on seven waterfront acres along the Gulf of Mexico, Beachside Key West serves as an ideal location for a nice getaway.

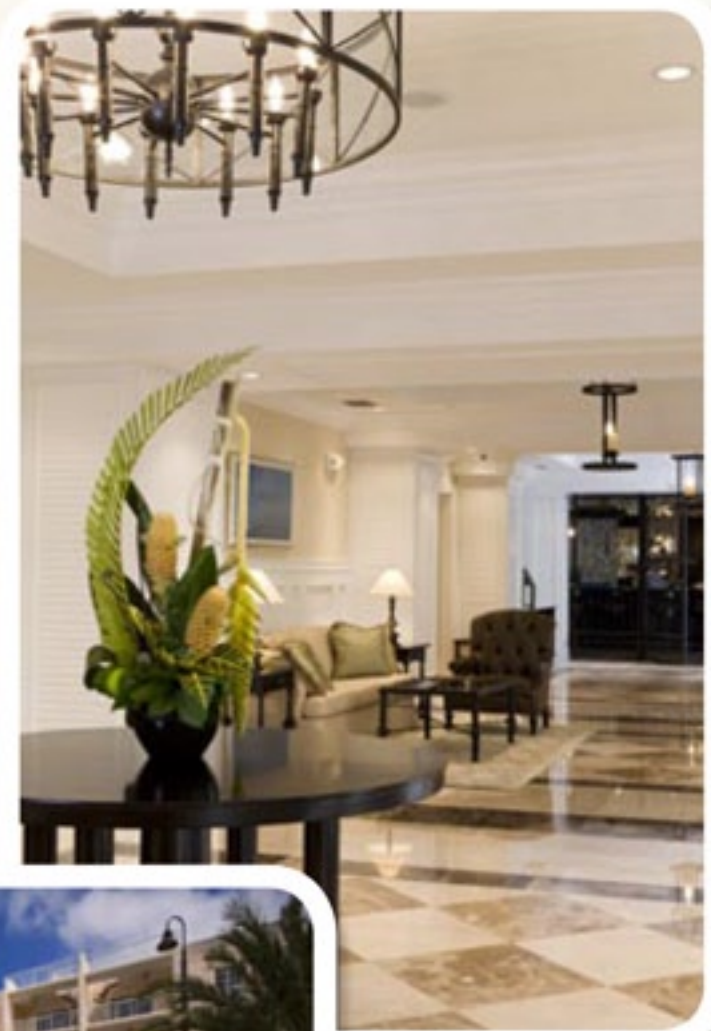

deal for conferences since the property boasts a 6,000 square-foot events facility – we found the room accommodations fitting for a more intimate party.

Very stylish with its accommodations! Some guest room features include marble flooring throughout, oversized balconies with waterfront views, open gourmet kitchens with granite counter tops and stainless built-in appliances, European-inspired cabinetry, full capacity washer and dryer, high-speed Internet access and satellite television, sub-zero refrigerator/freezer and tinted hurricane glass on all doors and windows. Other plush touches include marble Jacuzzi tubs, Frette linens, fine china kitchenware, bath amenities by L'Occitane and 26", 32" and 42" LCD flat screen televisions.

It's like a home away from home for you and your honey boo.

Couples willing to venture outside can visit local galleries, botanical gardens, historical landmarks, partake in fishing charters and much more. The resort is just a short three miles from the nightlife and culture of downtown Key West and the famous Duval Street.
